

IN THE SPECIFICATION

Please replace the paragraph at page 13, lines 5-17, with the following:

A process 26 includes one or more modules 28, and a module server 80. The module server 80 includes one or more services 32, supporting the modules 28 in the process 26, and a global association map 50, operable to store association entries 52 for each module 28 in the process 26. The module server 80 is operable to store a range of services 32-N, in accordance with the services architecture discussed further below, as shown by partially dashed lines around services 32-N. In particular, the module server 80 is adapted to support services 32 including an event service and a timer service, as disclosed in copending U.S. patent applications entitled “SYSTEM AND METHODS FOR EVENT SERVICES,” (U.S. Patent Application No.: 10/750,227~~Atty. Docket No. EMC03-22~~) and “METHODS AND APPARATUS FOR A TIMER EVENT SERVICE INFRASTRUCTURE,” (U.S. Patent Application No.: 10/750,413~~Atty. Docket No. EMC03-25~~) respectively, both assigned to the assignee of the present application and filed concurrently with the present application, incorporated herein by reference in entirety.
